

K-LOVE (aired on 95.3 FM in Lexington, KY) provides me with inspiring Christian music, thereby allowing me to express Freedom of Religion while I listen to the radio. K-LOVE cares for thousands, if not millions, of listeners like myself. If K-LOVE is replaced by an LPFM station, I would lose my access to a station that allows me to express my rights to Freedom of Religion. It would diminish the moral support of me and thousands of listeners in my area.

The service provided by K-LOVE is in the public interest because it does allow people to express their right to freedom of religion and freedom of speech. It also, most importantly, provides a communication network among Christians that includes ways to pray for each other and for situations around the world. It allows a way for people to POSITIVELY impact their area, despite the programming on other stations that has a NEGATIVE or even inconsequential influence.
